Re: Financial Policy Update on Outstanding Balances

Thank you for choosing us as your healthcare provider. We understand how overwhelming it can be to deal with both your health and healthcare billing. Our goal is to make the entire process as easy as possible for you. SCIM is offering an alternative arrangement to assist you if you are not able to meet your financial obligations.

Effective immediately our terms for our Financial Agreement have changed as follows:

Past account balances will require a 20% down payment with the remaining balance paid in full within (12) months per a signed financial agreement. This is in addition to copays, coinsurance and deductibles for current dates of service.

SCIM will no longer offer verbal financial agreements. Payments are required by an automatic monthly draft. In the event you are not able to set up a monthly draft with a Credit/Debit card, we will offer a check agreement as long as the payments are made on time. Should you be unable to fulfill the above financial agreement or unable to make a payment, we will not schedule any appointments until payments are made.

Our front office staff will assist you in setting up a Financial Agreement or you can contact our billing office at 866-410-1507.

Sincerely,
Management
